Harold:

The Ntl Archives, the NY public library, Entry I, executive sessions of the W.C. Report, plus all my other usual sources can't lay hands on the testimony of the three criminal psychiatrists, in executive session, around July 14, 1964. Or did they meet only with investigators?

Do you know the names of the three?

Can you suggest a source in the NY area for the transcripts?

Do you happen to have a copy of the transcript (10 cents a page?)?

Thanks, Harold.

Jim

(Today, Walter and I could not recall a single hint that Nixon had a hand in the murder of JFK. Has there ever been such a suggestion? (He left Dallas before JFK landed.)
